ENVIRONMENTAL POLICY

Environmental Policy of RotoLeader Sp. z o.o. have been established to enable us to meet the needs of both customers and the environment. The Policy implemented by our Company is appropriate for the impact and scale of influence on the environment and is the basis for setting environmental objectives and goals.

Environmental concern covers every aspect of our Company's operations starting from optimal product design and purchasing to implementation of innovative, energy-efficient and environmentally-friendly technologies. We strongly believe that our attention to the environmental aspects has a direct impact on the company's economic efficiency and the economic development of the country.

Environmental policy of RotoLeader Sp. z o.o. is implemented through the following activities:

- We run our business in accordance with the regulations and standards concerning the environment,
- We minimize the environmental impact by implementing and improving low- and no-waste technologies,
- Production waste are recycled and reused,
- We develop energy-saving production cycles,
- We minimize the consumption of water and energy,
- We use biodegradable chemicals,
- We constantly work with trusted and reliable suppliers.
